New Products

PATENT PENDING

MANUALLY ADJUSTABLE ANTENNA MOUNT

- Features a bottom mounted crank assembly for ease of deployment fore and aft.
 - Simply push up on the handle to release the gears and turn 12 times to complete deployment of your antenna.
 - Then simply pull handle down to lock into place.
 - Adjustable up or down motion eliminates climbing the gunnel to adjust your antenna.
 - Fits all prepared t-tops with 3" Mounting Hole. Fits Hard tops up to 2 1/2" thick.
- 88810 - Manually Adjustable Antenna Mount

MANUALLY ADJUSTABLE RUNNING LIGHT MOUNT

- Features a bottom mounted crank assembly for ease of deployment fore and aft.
- Simply push up on the handle to release the gears and turn 12 times to complete deployment of your running light.
- Then simply pull handle down to lock into place.
- Adjustable up or down motion eliminates climbing the gunnel to adjust your running light.
- Fits all prepared t-tops with 3" Mounting Hole. Fits Hard tops up to 2 1/2" thick.

88811 - Manually Adjustable Running Light Mount

MANUALLY ADJUSTABLE FLAG MOUNT

- Features a bottom mounted crank assembly for ease of deployment.
- Simply push up on the handle to release the gears and turn 12 times to complete deployment of your flag.
- Then simply pull handle down to lock into place.
- Adjustable up or down motion eliminates climbing the gunnel to adjust your flag.
- Fits all prepared t-tops with 3" Mounting Hole. Fits Hard tops up to 2 1/2" thick.

88812 - Manually Adjustable Flag Mount

MANUALLY ADJUSTABLE CENTER RIGGER MOUNT

- Features a bottom mounted crank assembly for ease of deployment.
- Simply push up on the handle to release the gears and turn to complete deployment of your center rigger to your preferred angle.
- Then simply pull handle down to lock into place.
- Fits all prepared t-tops with 3" Mounting Hole. Fits Hard tops up to 2 1/2" thick.

88813 - Manually Adjustable Center Rigger Mount

New Products

ELECTRONICALLY OPERATED ADJUSTABLE ANTENNA MOUNT

PATENT PENDING

Finally an Electronically Operated Antenna Mount that allows the user to raise or lower your antenna without ever leaving the console of your boat.

- Meticulous Engineering provides for exact raising or lowering of your antenna from the console of your boat.
- To raise and lower their antenna simply press a switch.
- The powerful 12V motor drive allows for the total deployment and/or adjustment by simply pressing the switch up for deploying or pressing switch down for retrieval.
- Mounting Plate Size: 4" W x 8" L Bolt pattern fits standard t-top extrusions with a 3" X 5" standard hole pattern
- Includes 12' of wire from each holder.
- Units are supplied with a standard on off on switch.
- Convenience, craftsmanship, quality and performance will make these products a preferred selection for all Boaters and Sport- Fishermen.

88814 - Electronically Adjustable Antenna Mount

**Also Available in Running
and Anchor Light**

88815 - Electronically adjustable running and anchor light mount

“TIGRESS® QUALITY” ACCEPT NO IMITATIONS

Since our inception 24 years ago, Tigress’ mission has been to raise the bar for innovation, quality, ease of use, and convenience on our products offered to the salt water sports fishing industry.

All Tigress® Aluminum Outriggers are constructed of cold drawn aluminum for maximum strength and durability. We then use a state of the art anodizing process to protect & enhance our products.

Every accessory is constructed of the best materials to give the maximum service and life.

Tigress® uses only 300 & 316 stainless steel in every rod holder or outrigger holders.

“SAY HELLO TO SIMPLICITY”

Our Patented TigerShark I Electronically operated LineRigger and our TigerShark II Manually Operated LineRigger offer the user the “Simplicity” of deploying their outriggers both up and out to the fishing position in one step. A simple push of the control switch for the electronic version or a few cranks of the handle for the manual version and you are fishing.

Tigress® Tiger Fish and Tiger Fish II Top Mount Outrigger Holders allow the user to deploy his outriggers from the safety and convenience of his console. No more standing on the gunnel in heavy seas trying not to fall overboard while deploying your outriggers. Simply pull down the handle and move your outrigger to select one of multiple fishing positions.

We have and will continue to expand our quality offerings of fine products and accessories making the Tigress® Product Line of Outriggers and Gear the Standard of Quality and Excellence.

Electric Top Mounts 5

IT'S ELECTRIC TIGERSHARK LINERIGGER® TOP MOUNT OUTRIGGER HOLDERS

TIGERSHARK I - SAY HELLO TO SIMPLICITY!!

THE SIMPLICITY OF PRESSING A SWITCH AND YOU'RE FISHING!!

- The TigerShark I LineRigger® is the first electronically operated top mount outrigger holder offered in the market.
- Meticulous engineering provides exact electronic deployment of your outriggers from your console.

Kites & Accessories 15

Bite-This® HI-PERFORMANCE KITES

88611

- The Ultimate High Performance fishing kite.
- Will exceed all of your expectations and fly steady in all winds from 5 - 15 mph with a simple adjustment to the bridle, eliminating the need for different kites for different winds.
- Light weight spars are constructed of 100% carbon graphite.

Bite-This® HI-VELOCITY KITES

88611-1

- This particular kite model will fly steady in winds of 15 mph and up.
- 4 holes in the custom fabric body to allow for passage of air thru the face of the kite allowing it to fly at higher velocity winds.
- Light weight spars are constructed of 100% carbon graphite.

	88655	KITE KIT : (2 CLIPS, 2 WIND-ON SWIVELS & 1 COASTLOCK SWIVEL)

16 Kite Rod Holders, & Accessories

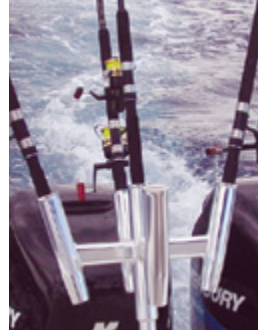

KITE FISHING ROD HOLDER ARRAY'S

TRIPLE KITE ROD

- Rod holder is used for 1 kite rod and 2 additional rods to increase your rod storage capacity and keep them up and out of the way.
- Constructed of Cold Drawn Anodized Aluminum.
- Available in either bent butt or straight.
- Tube ID 1 5/8" Base OD 1.49".

88156 Bent Butt Brushed
88158 Bent Butt Polished
88159 Straight Butt Polished
88153-2 Stainless Triple

FIVE BANGER ALUMINUM

- Designed to increase your rod storage capacity from 1 to 5 and keep your fishing rods in easy reach.
- Constructed of cold drawn high polished anodized aluminum.
- Tube ID 1 5/8" Base OD 1.49".

88157 Straight Butt
88157-1 Bent Butt

DUAL KITE ROD

- Designed to increase your rod storage capacity, or use one side for your kite rod and other for fishing rod.
- Constructed of Cold Drawn Anodized Aluminum.
- Tube ID 1 5/8" Base OD 1.49".

88154 Straight Butt Brush

FIVE BANGER LIGHT STAINLESS STEEL

- Designed to increase your rod storage capacity from 1 to 5 and keep your fishing rods in easy reach.
- Constructed of high polished stainless steel.
- Tube ID 1 5/8" Base OD 1.49".

88153 Stainless Straight
88153-1 Stainless Bent Butt

KITE FLYING ACCESSORIES

88612 KITE LINE I ASSEMBLY

- Ready Rigged Kite Lines
- 250ft. of 100 lb. Spectra line
 - Three release clips •swivels on reusable spool

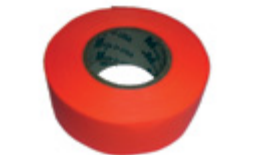

88613 KITE LINE II ASSEMBLY

- Ready Rigged Kite Lines
- 250ft. of 80 lb. Spectra line
 - Two release clips
 - Swivels on reusable spool

88614 KITE LINE III ASSEMBLY

- Ready Rigged Kite Lines
- 250ft. of 50 lb. Spectra line
 - Two release clips
 - Swivels on reusable spool

88616 KITE LINE MARKER TAPE

- UV Resistant kite line tape, an economical convenient alternative to weighted kite line markers.

Made in USA

88665 KITE RING ASSEMBLY

88658-9 KITE SPRING RELEASE CLIP

- Clips onto your kite lines to adjust space between clips

88678 PLANER RELEASE ASSEMBLY

- Use with planer provides a quick release and allows you to free-fight the fish.
- Includes 36" of 480lb test cable, release clip & heavy duty ball bearing snap swivels.

88615 HELIUM BALLOONS

- Ideal for adding that extra lift to kites on those light wind days or used on their own when there is no wind. 2 balloons with 3 clips. Made of 100% pure latex. Biodegradable

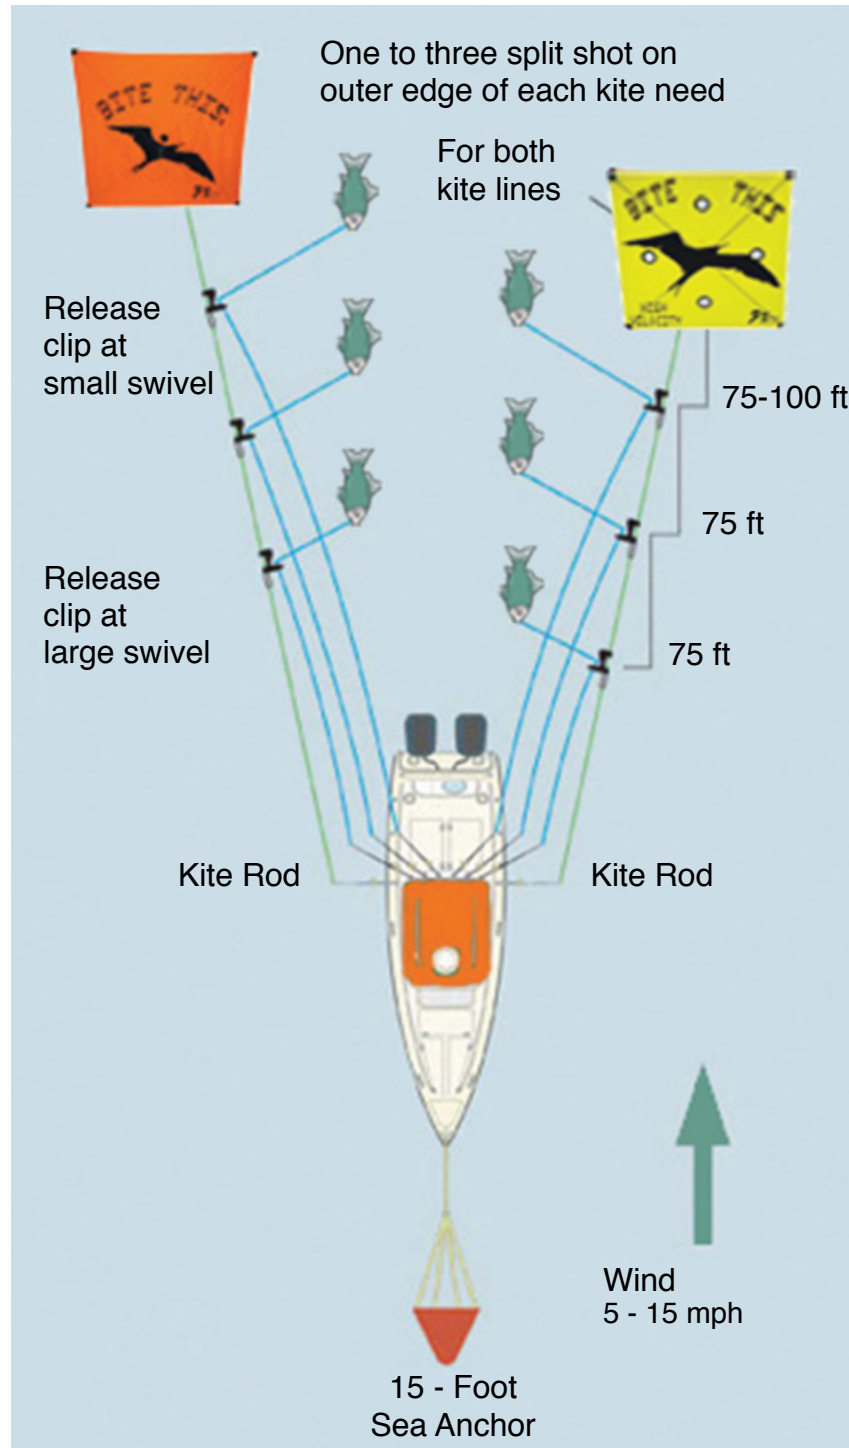

How To Set Up Your Tigress Kite

Tigress by popular demand has put together the most comprehensive line of kite fishing products available to the sport-fishing industry.

From a single HI-performance kite for all winds from 5 - 15 mph, to the introduction this year of our new Hi-Velocity Kite to Fly steady in winds of 15 MPH & Up, Pre-rigged kite line kits and a complete line of kite clips and accessories. Tigress provides it.

Displayed below for your use and explanation a simple diagram of a typical kite set up.

Triple, Bolt-On 31 & Transom Rod Holders

OFFSET TRIPLE ROD HOLDER W/STORAGE CUPS

88149 Straight Butt w/cup holders

- This quality rod holder can be used for rod storage and is most useful in kite fishing.
- Cups allow for holding your rigging tools as well as your drink.
- Constructed of anodized aluminum and White Liner to protect your Rods.
- Tube ID 1 7/8" Base OD 1.49".

OFFSET TRIPLE ROD HOLDER

88149-1 Straight butt

- Triple offset can be used port or starboard
- Additional rod storage or for kite fishing.
- Constructed of anodized aluminum.
- Tube ID 1 7/8" Base OD 1.49".

TRIPLE BOLT-ON ARRAY

Part 88145

- Designed to increase your rod storage.
- Constructed of cold drawn aluminum with brushed finish.
- Includes white liner.

SINGLE BOLT-ON ROD HOLDER

- This Versatile Rod Holder can be mounted on your gunnel, transom or just about anywhere you need additional rod storage.
- Constructed of anodized aluminum
- Includes white liner

Part 88146

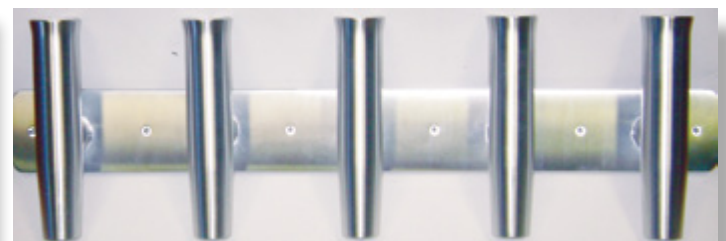

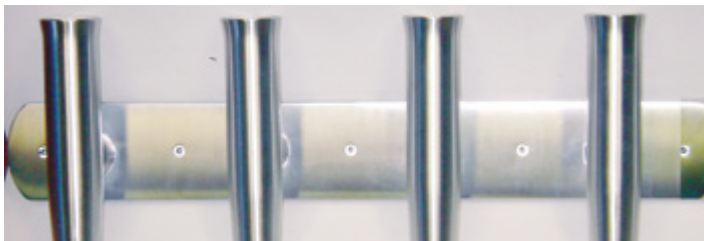

Designed for spinning Rods & Reels

- The tube is polished to a mirror finish & anodized clear.
- 8 1/2 Long 7/8 opening Slot 2 1/2 Long

Part 88147

TRANSOM MOUNT ROD HOLDERS

- Constructed of cold drawn anodized aluminum
- Includes White liners to protect your rod.
- Available with either 4 rod holders or 5 rod holders as shown.

40 Inline & Hand Rail LED Lighting

T-TOP & TOWER IN-LINE LED LIGHTS

PATENT #US 8,303,145 B2

IN-LINE ALUMINUM LED LIGHTS

Make your T-top or Tuna Tower look as though it came with lighting.

- Available for the non-structural part of your 1-5/16" Aluminum Schedule 40 Pipe.
- Includes the necessary couplers for installation.
- May be installed overhead, on T-top side rail and in many other locations where you may enjoy extra lighting.
- Simply cut 12 or 20" out of your non-structural schedule 40 aluminum pipe and place in.
- 12" and 20" Inlines offers low power consumption, low glare and long life, 12V DC Power only.
- High efficiency strips are waterproof (not to be submerged).

Clamp-On LED Lighting 41

CLAMP-ON ED LIGHTS

- Enhance your T-top or Tuna Tower with our bright finished aluminum clamp-on lights.
- Fits non-structural 1-1/16" & 1-5/16" Aluminum Schedule 40 Pipe.
- May be installed overhead, on t-top, side rail and in many other locations that you have 3/4" - 1" IPS Pipe.
- 12" and 20" Inlines offers low power consumption, low glare and long life, 12V DC Power only.
- High efficiency strips are waterproof (not to be submerged).

Each package includes bushing to reduce from 1-5/16" to 1-1/16"
