CUSTOM METAL FABRICATION

**UMT MARINE**

QUALITY IN EVERYTHING WE DO

- **Precision Engineering**
- **Technology and Innovation**
- **Exceptional Quality, Aesthetics and Durability**
- **Unsurpassed Service**

Together, these principles comprise the philosophy upon which UMT Marine was founded 20 years ago. These are ideologies that are still practiced today.

UMT is a renowned leader blending the tradition of European craftsmanship with a relentless passion for innovation. Our belief in education, technology and old world apprenticeship training is why UMT continues to be a respected partner in the marine industry.

Everyone from yachtsmen to captains have made UMT Marine their resource for custom yacht davits and cradles [chocks], lifting systems, railings, anchor pockets, tie downs, stairs, ladders, and more, as a result of our unwavering commitment to quality and service.

**UMT MARINE**

QUALITY IN EVERYTHING WE DO

Within UMT's state-of-the-art fabrication facility, uniquely trained naval architects, designers and engineers collaborate with machinists and hydraulic and electrical technicians to produce exceptional fabricated metalwork. We are dedicated to using the highest quality materials to create refined metalwork that is customized to your specifications. Upon completion, our professional crew will travel to provide precise on site installation of UMT's products to ensure your complete satisfaction.

Reliability, innovation, aesthetics and service comprise the essential elements of creating a quality custom product. UMT's 24-hour availability guarantees that we will meet your needs, on time and beyond expectation. It's our reputation and we've earned it.

UMT Marine is headquartered in the marine capital of Ft. Lauderdale, Florida to best service luxury motor yachts and pleasure crafts from all around the world. We also have trusted service partners located in key international maritime centers.

## QUALITY BOARDING PRODUCTS

### Boarding Stairs

Aluminum Heavy duty or Ultra-light carbon fiber boarding stairs are the perfect combination of form and function for your vessel. Available in a variety of widths and configurations from 2 to 10 steps and are also available with different thread surfaces. Teak, Black, White Starboard, as well as Black, White and Gray Non-Skid UMT's new Boarding Stairs will match perfectly with your yacht's décor. Even add your ship's motif or logo for that extra touch. Custom storage bags are also available, and as always, UMT can further customize these stairs to fit any vessel or specification.

## NEWLY RELEASED YACHT DAVIT

### **VX Series Davit**

UMT's VX crane is the most robust and versatile yacht crane in the market. It can be mounted using a low profile base configuration or a higher profile pedestal base. It is the ideal crane for any yacht 80' and above with larger capacity and reach requirements. It can be mounted on any deck using a regular or rotating standpipe or pedestal base.
