

A power pedestal that is just
the right size

Hatteras Light®

This powerful yet compact pedestal is perfect for providing shore power connections to residential boaters or docks with limited space. The Hatteras has similar features as our Lighthouse but in a smaller, more compact frame size. The power options go up to 50 Amps which is powerful enough for most boats making the Hatteras a perfect addition to your residential dock.

- Perfect for Walkway Lighting, Decks, Pools, and Smaller Boating Applications
- Smaller than most other power pedestals (30 inches tall)
- Easy installation with modular base mount bracket assembly
- Same side breaker & receptacle access via flip cover
- Compact, versatile and highly configurable
